CONSENT TO TREAT

To: Residents and Families at: _____

Patient Name: _____ DOB: _____

From: Bliss Specialty Healthcare Group

Thank you for allowing Bliss Specialty Healthcare Group to be part of your loved one's care. We are mobile multi- specialty group who provide wound care and dermatology services to clients in nursing homes, assisted living facilities and private homes. We make every effort to provide excellent, state of the art care to any resident in need. Most of our clientele are elderly and have difficulty leaving where they reside. We help your loved ones stay in the comfort of their homes while they are being treated.

As you may be aware, the skin is the largest organ on your body. And... your loved one doesn't heal as well as they used to. It's an inevitable effect of aging and most times require intervention to promote wound healing and recovery. Therefore, our service is invaluable to the clients that we provide it to. We help patients heal and remain free from unfavorable skin conditions! We provide weekly visits to our patients and work alongside home health, families, caregivers, nurses, and the facilities.

Our board-certified wound care specialists may do several procedures over the course of wound healing and as part of skin care. These procedures are necessary to help your loved ones heal, to help diagnose, treat, decrease infection or to decrease their risk of skin cancer. These may include debridement, cryotherapy, biopsy, cauterization, toenail debridement, removal of skin tags, removal of suspicious skin conditions, Incision and drainage of abscess, foreign body removal, skin scrapings, suturing, callus shave...just to name a few. Don't worry, your loved ones are anesthetized with a numbing spray, gel or injectable to minimize pain and made comfortable. These procedures are all important to skin and wound care because it provides good tissue for healing and valuable information regarding skin and wound progress.

We accept Medicare part B and all PPO's. We do not accept any HMO's Managed Plan for payment. Medicare patients are responsible for the yearly deductible which begins each calendar year and for the 20% copay that Medicare does not cover. In most cases, our office will bill the secondary insurance. For those who elect not to carry a secondary insurance, a bill will be sent. At times Medicare's explanation of our services can be confusing. Our staff will be happy to discuss any question you have about a bill received or any concerns.

The attached consent form is being sent for your signature. Please follow the instructions to complete it and thank you for returning it in a timely manner. We look forward to performing excellent, unmatched care for your loved ones and will do our best to help them heal and have favorable skin.
